Sue,

Sorry for the delay in getting the scanned version of the AOC to you. In preparing the AOC to scan I noticed that we had not completed paragraph 15.1. We had left a space saver for the name and contact information of the person who will receive reports, notifications, and other submittals on behalf of the company. Please provide that information to me as quickly as possible and I will insert that into the AOC. Because we've made changes to the AOC, I also need to run the most recent version by EPA management for concurrence. The previous draft sent to you in January had received management approval, so obtaining approval of our agreed changes should not be a problem. I should be able to provide the pdf final to you electronically by Friday and then send the original by overnight mail so you receive it by Monday. I will inform you if there will be a delay. Please contact me with questions.

Thank you.

Deborah Hilsman
Assistant Regional Counsel
U.S. EPA Region 10
